

Public
Administration Buildings Service Washington, DC 20415

007 5 1979

Mr. James H. McDonald
Director of Logistics
Central Intelligence Agency
Washington, DC 20505

Dear Mr. McDonald:

The Administrator has asked me to respond to your letter of September 25 concerning parking rates to be assigned Federal employees using Government controlled facilities.

The monthly rate for FY 1980 for the East, South, and Central Buildings located at 2430 E Street NW, Washington, DC is \$40.

In accordance with the Office of Management and Budget Circular A-118, the rate will be 50 percent of this amount from November 1, 1979, through the balance of FY 1980. On July 1 of each year, the General Services Administration (GSA) will furnish each agency a printout listing the monthly parking charge for the next fiscal year at each GSA-controlled facility where the rate per space exceeds \$10.

We have discussed with officials of our National Capital Region the matter of employee parking charges at the [redacted] Mclean, Virginia. They agree with your interpretation that these facilities should be exempt. We recommend, however, that you encourage car pooling to the greatest extent feasible, in accordance with Paragraph 5f of the OMB Circular A-118. 25X1

If I can be of further assistance, please let me know.

LOY N. SHIPP, JR.
Assistant Commissioner
for Space Management
